TECHNICAL PROJECTS

HYDR8TE

A Personal Hydration Tracking Application

- Developed a daily journal for water consumption with dynamic data rendering and CRUD functionality
- Utilized BCrypt and back-end validations to protect user privacy and increase security
- Deployed using Heroku and refactored from SQLite to PostgreSQL

REACT MUSIC QUIZ

Quiz App that implements the OpenTrivia DB API

- Built application using HTML, CSS, JavaScript and the React library to dynamically display new quiz questions and render dynamic state.
- Deployed using Firebase

EXPERIENCE

Software Engineer

Drov Technologies | Oklahoma City, OK | August 2020- current

- Executed new product design initiatives using the Angular framework
- Improved overall performance by refactoring various components and utilizing a DRY approach
- Maintained proper organization of the codebase using Git and adhering to company standards

Part-Time Developer & Business Development

Deep Fork Technology | Oklahoma City, OK | July 2020 - current

- Drafted wireframes using Figma, InVision, and Microsoft Visual Studio
- Increased revenue by closing deals with prospective clients
- Performed QA testing and detailed findings using Basecamp
- Content manager for DFT Twitter

Project Lead & Business Development

Chivvy LLC | Oklahoma City, OK | Nov 2019 - Aug 2020

- Directed all elements of the product development cycle using Agile practices such as rapid prototyping and user acceptance testing.
- Coordinated sprints, validated wireframes, and pruned the backlog using data from launch goals, requirements, and consumer feedback.
- Organized product demos with existing and prospective clients
